

Greater San Diego Academy Director

Gail Levine

When I was offered the position as director of GSDA, I welcomed the opportunity to blend my expertise with personalized learning, my school administration experience, and my business background into one career position. With 18 years of experience in the field of education, a Masters of Science in Education with a focus on higher order thinking skills, and an Administrative Services Credential on top of 15 years of experience in the private business sector, I feel that I am well qualified to lead GSDA into the future.

My educational background includes training and dedication to personalized learning, having planned and implemented both Language Arts and Math curriculum that addressed individual students' abilities and their needs for both growth and challenge...sometimes as many as 120 students per year. My business background ranges from oversight of a multi-million dollar budget in retail operations to helping my husband manage his own business. I bring to the table a positive attitude, a willingness to listen, and a determination to succeed that will serve GSDA well into the future.

In my free time, I enjoy spending time with my family, reading, and gardening.
