

Robin DuBroy

I am thrilled to be working at the Central County GSDA site this year! I love being able to help families personalize their education and spend more time together. I also enjoy teaching the onsite enrichment classes for writing and computers.

Before joining GSDA, I earned my BA and teaching credential through Cal State San Marcos. I also earned my Masters online through Ashford University. I have had a variety of previous teaching jobs including: providing reading support for students in grades K-5, I was a summer school teacher for foreign exchange students from China, I taught a Modern Fantasy Writing course for two summers in La Jolla, and substituted across the North County area.

Personally, I enjoy spending time with my husband and my two children. We love swimming and going to the beach together. We are also big fans of the whole Disneyland experience, and hope to travel to Walt Disney World as a family someday. I also enjoy reading, going to the movies, and traveling.
