

# Rebecca Reed

## Educational Experience:

I earned my Bachelor's Degree in Environmental Science with an emphasis in Environmental

Education at the University of Oregon. I then went on to attend National University in order to gain my Multiple Subject Teaching Credential. I completed my Master's Degree in Kindergarten through Eighth Grade Mathematics Education in 2008.

While earning my teaching credential I worked in the San Diego Unified and Encinitas School Districts, working with grades K-8. I began my teaching career teaching the 4th grade at Ocean Beach Elementary in the San Diego Unified School District for one year and went on to teach the 2nd grade for three years. I am excited about continuing my teaching career here at Greater San Diego Academy as a science lab teacher and educational consultant.

## Personal Information:

I grew up in the San Francisco Bay Area and spent my summers on the Russian River in Northern California, which is where my love of the outdoors began and where I recently got married. I love reading and spending time with my family, friends, and French Bulldog Bugsy. My hobbies include swimming, traveling, and camping.
