

Rachael Coughlin

As a returning member of the Greater San Diego Academy Home School staff I really enjoy my position as an educational consultant. I enjoy working with students and families as they reach their academic goals. I earned a Bachelors Degree from San Diego State in English. I went on to earn a teaching credential from National University and I am currently working towards a Masters degree in English at National University. I have experience working in varied educational settings including classrooms, in Resource and in specially funded programs. I have also worked as an ESL instructor for foreign exchange students over the summer break. Personally, I enjoy spending time with my husband and family and two dogs. I enjoy reading, writing and enjoying the fine arts in my free time.
