

Kim Tiffany

I have been a GSDA consultant since 2008. I love that my job allows me to work with students of all ages! I enjoy teaching on-site enrichment classes in math, Inventions, and art.

Prior to GSDA, I worked in many unique educational settings. I worked in a residential program in Santa Barbara, worked with special needs students for a few summers in New Hampshire, taught Inventions at a summer school in La Jolla, substituted across San Diego County, and worked as a Reading Interventions teacher for 4th grade students in Oceanside.

I obtained my BA in Psychology at UC Santa Barbara. I also received my M.Ed. and Multiple Subjects Teaching Credential at UC San Diego.
