

Indian Hills Camp “Orienteering and Bugs”

Description:

Come and experience an exciting and highly educational day at Indian Hills! Day field trips consist of two outdoor education classes, a trip to the farmyard and free time/lunch on the giant playground and a trip to the camp store!

Orienteering: Students will learn about the forces that govern Planet Earth. Come discover how you can use the force of magnetism to help you survive in the wilderness.

Bugs: Students will discover that San Diego is home to thousands of species of creepy crawlers and flyers. Some are beneficial to humans and some are not. Discover the wild world of insects and arachnids in this fun, hands on class.

When: Friday, February 5, 2010
Meet at 9:15
Field Trip begins at 9:30 and ends at 1:30

Where: Indian Hills Camp
15763 Lyons Valley Road
Jamul, CA 91935
(619) 669-6498
