

# OLD TOWN HISTORIC PARK TOUR

The docents will take you back to the 1800's and tell the story of early Old Town San Diego. They will impart the feeling of "being there" by wearing period attire and will share their knowledge of all facets of early San Diego history while you enjoy this historic site. A visit to Old Town State Historic Park will give your students a first hand look at life in the early days of our city. The tours are lead primarily by former educators who volunteer their time. Burt will be our guide.
